

# Before School English Support Program

## (K3 – G5)

Students with insufficient language skills for learning often encounter difficulties understanding what their teachers and friends are saying, as well as expressing their ideas and feelings. This is a very stressful situation for a student to be in. This program is designed to support such students by focusing on basic language skills and understanding. Through this approach, we aim to help create an enjoyable and interesting learning environment that will allow students to actively learn at school.

This program is geared toward students that are struggling with English. We recommend that you take advantage of this program to build a strong foundation for your child's language ability.

### Application Process

Applications can be made on the LEAP website. Applications must be made separately each semester.

Please note that applying for a LEAP class does not automatically secure a place in the class. All applications are subject to a compulsory screening for eligibility. Depending on the language abilities of applicants it is possible some applications will not pass the initial screening stage. All applicants will be notified by email about the status of the LEAP application within 3 working days of applying. Seats are limited, and priority will be given to those who have a strong need for English support and have received a recommendation letter.
